 - Controls Odors
- Tested Proven Results
- Safe Around Children & Pets

**Super Concentrated Preformed
Enzyme Cleaner**

Part 1 of the *Plus Natural Enzymes*
Pest Elimination System

32 Fl. Oz / 946 ml

Ingredients:

Filtered & Purified water, and natural enzyme cleaners including Protease, Lipase, Cellulase and Amylase.

CAUTION: Avoid getting into the eyes. If there is accidental eye contact, flush eyes thoroughly with cool water. In case of accidental ingestion, seek professional medical assistance.

Rinsability: Washes off completely in water, does not leave streaks or bead stains. Once rinsed leaves a non-static finish, inhibiting accumulation of dust, grime, or protein matter.

Enzyme Cleaner: Digests grease and other organic matter. It cleans and deodorizes floors, walls, chrome and other surfaces not harmed by water. It can be used with pressurized, mechanical, and manual systems, hand sprayers, mops, and cloths. Water temperatures above 65°F will prolong the time required for optimal cleansing.

Suggested Application Rates: 1/2 to 2 oz. Per Qt.
