

All Natural and Environmentally Safe.

“The National Pest Management Association reports an 81% increase in bedbug calls since 2000.”

Bedbugs can hide anywhere: Behind walls, under carpeting,

beds & bed frames, couches, clothes and can hitchhike on your belongings, suitcases and in your car.

Bedbug bites were once considered a problem found mainly in cheap motels. But lately bedbugs have expanded into high-end hotels and homes. Global travel has increased the spread of bedbugs.

If you have seen Bedbugs:

- WASH & DRY clothes and bed linens at the hottest temperature allowed for the fabric.
- REMOVE CLUTTER so you'll be able to see bedbugs in your home.
- INSPECT any furniture, new, or second-hand before bringing it in.
- CALL a professional pest control company if the problem persists. It might be too late to do it yourself.

Plus Natural Enzymes Ready-to-Use Bedbug Eliminator was developed by the owners of A-Plus Pest Control, Inc. as an alternative to dangerous chemicals. See the website for more details and to see our full line of pest control products.

All Natural.

Easy to Use.

Environmentally Safe.

Use the †Plus Natural Enzymes Bedbug Eliminator at the first sign of Bedbugs.

Getting bedbugs has nothing to do with how clean you are. You can pick them up anywhere. They can be in houses, apartments & condos, hotel rooms, offices, movie theaters, buses, and even the gym.

If you see blood stains, brown spots (droppings) or live bedbugs on bed sheets and skirts, seams or mattress tags, bed boards or walls, spray **Bedbug Eliminator** immediately. It's safe to use anywhere.

Catching a problem early reduces the chance of total infestation.
